WHAT YOUR SCORE MEANS

Where are you?

17 to 20

Brand strong

Your brand is consistent and trustworthy. Next: add motion, templates and a brand guide so growth stays easy.

11 to 16

Good base, gaps to fix

People can find you, but small gaps cost trust. Fix consistency and contrast first, then refresh your templates.

6 to 10

Time for a refresh

Your customers may be seeing mixed messages. A new logo or brand kit and a post template pack will make a big difference.

0 to 5

Start fresh

Do not patch it. Start with a clear logo, colours and fonts, then build everything else on top.
