01 ABOUT US

Who we are

Behind every small business is an idea that deserves to look as good as it is. Max_imum Designs is a graphic design studio based in Nairobi that gives founders a clear, confident brand without agency prices or freelancer guesswork.

We design logos, brand kits, social media, print and pitch decks. Every project has a written quotation, a clear timeline and a fixed number of revisions, so you always know what you will get and what it will cost.
